Trends Data Team

Last updated: September 6, 2022

Notes:

- "Breakout" means the search term had a tremendous increase, in some cases because these queries are new and had few (if any) prior searches.
- Top or Most Searched: The "most searched" queries are those that rank highest by search volume for a given timeframe and location.
- Trending Searches: "Trending" queries are the search terms that had the highest spike in traffic over a given time period as compared with the previous equivalent period.
- For more information about our methodology and How to interpret the data, please read our [FAQs](#).

[CHART](#): Search interest in gasoline reached an all-time high in Belgium in March 2022
